\* The current recommendation is that at least 10 of the competitor's Heroes must match the theme.  
 \*\* This recommendation will increase as more singles become available.  
 \*\*\* Although the Power in Theme Formats is SPEC they all require competitive collecting of SPs and SSPs (Short & Super Short Prints).  
 \*\*\*\* Higher power themed cards should find homes in APEX decks. You can play "Themed APEX"...but buckle up buttercup!

**Tournament Organizer Suggestion:**  
 You may want to consider limiting Plays to "# PL-33 and above" for brackets of less competitive collectors.

Play Format Naming Convention (Solo & Team)

APEX Squad	APEX ONE

\* In all formats, organizers can choose between "Substitution Mode" for faster play and "Playmaker" for the full Battle Arena experience.
